Dump Bodies

BLACK BELT

- Extreme Material Delivery System

Extremely rugged. Extremely efficient. Extremely versatile. Extremely **extreme!** The Henderson BlackBelt handles it all with ease. Rip-rap. Rubble. Gravel. Sand. Boulders. Asphalt. The BlackBelt has a 54" wide pure belt delivery system that is both tough and high temperature tolerant. No chains to add costly maintenance and down time.

MARK THREE

- Utility Dump Body

A "every day" sized dump truck with the ruggedness of its bigger relatives. Clean unibody design with one-piece floor. Easy to install, optional steel side boards accommodate larger loads.

MARK TWO

- Single Axle Dump Body

This single-axle unibody dump body proves that lightweight and rugged go together. There's not a tougher utility body anywhere. It comes in lengths ranging from 10' - 12' with side heights of 24" or 30".

MARK FOUR

- Contractor Dump Body

A contractor's best friend. Need versatility? This is it. Optional split drop-sides let you decide what to unload where. Add optional steel side board and you'll increase load capacity nearly 100%.

Introducing the New MARK E

- Tandem Axle Dump Body

The Henderson Engineering Team pulled out all the stops this time to design a dump body that would allow each customer to fully customize and make his body his very own.

** LIFETIME WARRANTY ** Cranes

Quality Service Bodies for the Long Haul If your business depends on trucks, you can depend on RKI.

RKI cranes are used by the nation's premier fleets. With lift capacity ranging from 2,000 to 6,400 pounds, one of our cranes is ideally suited to your most demanding requirements.

Truck Boxes & Accessories

Our steel truck boxes are crafted from 14-gauge (minimum) steel with stainless steel hinges and full-size stainless steel paddle latches, and come with a tough polyester powder coat finish available in black or white. RKI aluminum truck boxes use bright-diamond treadplate aluminum and have sealed gas shock lid supports. These are also available in black or white powder coat.
